

RISK ASSESSMENT FORM.

Risk Assessment:				Register Number:			
Hazard:						HIERARCHY OF RISK CONTROL <ul style="list-style-type: none"> • Eliminate the Hazard • Substitute the Hazard with something of lesser Risk • Use Engineering Controls • Use Administrative Controls • Use Personal Protective Equipment 	
How dangerous is the hazard you've found? For each hazard, think about:							
RISK CRITERIA		CONSEQUENCES					
		Low	Minor	Mod	Major		Critical
LIKELIHOOD	Almost Certain	Mod	High	High	Extreme		Extreme
	Likely	Mod	Mod	High	Extreme	Extreme	
	Possible	Low	Mod	Mod	High	Extreme	
	Unlikely	Low	Low	Mod	High	High	
	Rare	Low	Low	Mod	Mod	High	
The higher the risk the more immediate the action						Risk Rating:	
Clearly describe the identified Hazard / Risk							
Location of the Hazard:							
What Risk does it pose?							
What steps have you taken to minimise the immediate Risk?							
Further Recommended Action (solutions to the problem including short and long term)
